

## Login using SSH key

- Go to <https://se2001.ds.study.iitm.ac.in/passwordless> and complete the form as per the instructions given.
- After submitting the SSH key, you can login to the VM using SSH from your system.
  - Make sure the directory `~/.ssh` with file permission 700
  - Make sure the files `~/.ssh/id_rsa.pub` and `~/.ssh/id_rsa` with file permission 600.

The below command used to connect remote machine via SSH with default private key (`~/.ssh/id_rsa`)

```
ssh 23f1003186@se2001.ds.study.iitm.ac.in
```

The below command used to connect remote machine via SSH with custom private key path. Note that `path/to/private/key` is the placeholder for the path to the private key file.

```
ssh -i path/to/private/key 23f1003186@se2001.ds.stud
```

- Then you can login to the remote VM with password.
